

## **Announcement**

**February 4, 2010**

Ayrshire Electronics is proud to announce the achievement of AS9100 Certification for the Ayrshire Electronics Minnesota operation located in Oakdale, Minnesota.

AS9100 is the internationally recognized Quality Management System standard specific to the aerospace industry. This standard is strongly supported and adhered to by major aerospace OEMs, and is being required by suppliers to these OEMs on an increasing basis.

AS9100 certification reflects Ayrshire Electronics' commitment to meeting and exceeding the increasingly stringent industry requirements for aerospace related products and ensures our customers' that our process-oriented approach will meet or exceed their rigorous quality requirements.

This certification strengthens Ayrshire Electronics' competitive position and standardizes quality, reliability and safety processes across its aerospace programs. AS9100 is based on the ISO 9001:2008 quality management standard, and provides 80 additional requirements and 18 amplifications specific to aerospace business operations.

According to Milo D. Bryant, Chairman and CEO of Ayrshire Electronics, "The AS9100 certification is the standard to which aerospace suppliers are measured and reflects the continuous improvement efforts and commitments made by our employees to deliver the highest quality products to our customers. The additional of AS9100 Certification compliments Ayrshire's ISO9001:2008 and ISO13485:2003 Certifications and highlights the company's focus on supporting the stringent requirements of the aerospace and medical industries."

Headquartered in Louisville, Kentucky, Ayrshire Electronics is a full service privately held Electronic Manufacturing Services (EMS) Company with five manufacturing and support facilities. Ayrshire manufactures and distributes printed circuit board assemblies and complex final assemblies supporting OEM customers across multiple market segments.
