

Ayrshire Electronics Earns Coveted AS9100C Aerospace Quality Registration

January 20, 2012

Oakdale, MN USA - Ayrshire Electronics is pleased to announce that its Oakdale, Minnesota facility has successfully completed its audit and received recommendation for AS9100C certification.

In the highly-regulated aviation, space and defense industries, certification to the AS9100C standard is a mandatory requirement to be considered as a supplier to leading aerospace and defense OEMs. AS9100C requires strict adherence to quality and reliability standards, documentation of procedures, and rigorous quality measurements and corrective actions to drive consistency in mission-critical products.

AS9100C certification at the Ayrshire Electronics Minnesota facility further extends Ayrshire's aerospace capabilities, enabling it to provide its customers with high quality, cost-competitive manufacturing services. Ayrshire Electronics Minnesota is fully qualified to meet the rigorous standards of the aerospace and defense industries including ITAR, ISO 9001:2008, AS9100C, ISO13485:2003, J-STD-001, IPC 610 Class 3, and Nadcap registrations. Ayrshire is a U.S. veteran-owned, U.S. S.B.A. Small Business.
